Computer Applications**

Thiruvalluvar University
Model Constituent College of Arts and Science,
Tittagudi – 606 106, Cuddalore District, Tamilnadu.

About Thiruvalluvar University

Thiruvalluvar University was established at Vellore by Government of Tamilnadu in October 2002. The University is located in a Sprawling Campus of about 112.68 acres at Serkkadu, Vellore. The University named after the great Tamil poet "Thiruvalluvar" is enshrined with the motto "கண்ணுடைய ரென்பவர் கற்றோர்".

About the Institution

Thiruvalluvar University Model Constituent College of Arts and Science was established in the year 2013. The College is located in northern side of Tittagudi, one of the religious town in Tamilnadu where Maharishi Vashitar lived. The College currently functions in the newly inaugurated building, in which 10 UG Courses (B.A. Tamil, B.A. English, B.C.A., B.Com., B.Com.C.A., B.Sc. Chemistry, B.Sc. Computer Science, B.Sc. Mathematics, B.Sc. Physics & B.Sc. Zoology) and 4 PG Courses (M.A. English, M.Com., M.Sc. Computer Science & M.Sc. Mathematics) are run, attended by over 1200 students.

About the Departments

The Department of Computer Science was started in the year 2013 and the Department of Computer Applications was started in the year 2016. The class room lectures are enriched by special talks on subjects of topical interest by experts from the IT industry and reputed academic institutions. The departments constitute of highly skilled and experienced faculty members belonging to various specialized areas of Computer Science and have been consistently developing skilled and well equipped graduates excelling in both academic and overall performances. The departments conduct Guest Lectures, Workshops and Seminars, which provides not only a learning platform for the students, but also motivates them to interact among students of other colleges & Industry delegates.

About the Seminar

Computers will become powerful extensions of human beings designed to augment intelligence, learning, communications, and productivity. Computers will become intuitive—they will "learn," "recognize," and "know" what we want, who we are, and even what we desire. The aim of this seminar is to teach the students, academicians and researchers to know the recent trends in computer applications and also to provide a forum for the transfer and dissemination of new ideas and technology among all those interested in the field of Information, Communication and Computing Technologies.

Objectives of the Seminar

- ✓ To know the recent and upcoming technologies in Computer Science and Computer Applications.
- ✓ To apply the fundamentals of computing knowledge to various real life application.
- ✓ To know the design and development of the applications to analyze and solve all computer science related problems.
